

## Welcome to the Wines of Leonardo LoCascio of Winebow Imports

No other single individual has done more to promote the introduction to the USA of high quality wine from small Italian estates over the past 20 years than his man, Leonardo LoCascio. What was his training for such a life's achievement? Did he study at a university in oenology? Was he born on an Italian wine-making estate and learn his craft from his father during the formative years of his life? No. His last position before embarking on importing Italian wine was as a banker!

In 1980, Mr. Locascio left a successful career in corporate finance to become a wine entrepreneur, giving up a position as a vice president at Citibank-a position he attained at the age 30-to launch Winebow. For 25 years now, he has been selecting wines for his portfolio with the same care he once brought to banking. Along the way he has earned a reputation for uncovering the best wines in Italy, often looking beyond the obvious wine regions of Tuscany, Piedmont and the Veneto to discover hidden gems worthy of importation. He is especially proud to having introduced Americans to the great wines of Italy's southern regions.

Today, Winebow's **Leonardo LoCascio Selection** with it's over 75 prized Italian producers is widely consider the most impressive Italian portfolio of any importers in the USA. Indeed, the **Leonardo LoCascio Selection** logo on a label has become the seal of approval for Italian wine enthusiasts.-**Robert Parker**

Considerable recognition has been give to Leonardo LoCascio's interesting and vast portfolio by noted wine magazines:

**Wine Advocate**:-"One of the influential wine personalities of the last 20 years."

**Wine Enthusiast**:-**2009 Importer of the Year**:-"From humble New Jersey beginnings, Winebow has become a leader among importers and distributor of fine wines and spirits from around the world."
