

White Burgundy Selections from Green's Special Values Under \$20!

Summer is one the best times to drink white Burgundy. They are Chardonnay, but made in a style that offers a different spin than California Chardonnay. Generally lighter, with a more refreshing finish, they are delicious wines to drink alone or with light summer fare.

The Green's tasting team found some good values here. All sell for under \$20 and meet our standards for excellent white Burgundy. Try one and you'll see what I mean.
