25 Great Wine Values for $10 or Less!

Green’s has provided relief for the post-holiday “credit card blues” with our “Great Values for $10 or Less” selection for the past 24 years. We know how important it is, particularly in today’s economic climate, to stretch every dollar. The trick is to sort through the mediocre, and yes, down-right bad wines, to find those diamonds in the rough that are, for whatever reason, under price.

The Green’s tasting team spent the past four months sampling through hundreds of wines to find the highest quality possible. We were able to find several great close-outs this year. By that I mean wholesalers who had too much inventory and were willing to part with wine at an unusually low price. Green’s was happy to help. We have passed these amazing values on to you, our customers. All have been taste-tested and meet the Green’s standard for quality in their price range.

We invite you to come to one of our 4 stores and partake of South Carolina’s best wine values. No other wine store goes to this much work to save you money.
